Product Description

TrailMaster F125 Youth ATV

Meet the **F125 Mid-Size 125cc Utility ATV**—built for kids but packed with features you’d expect from higher-end models. This quad is designed with quality and attention to detail, offering front and rear hydraulic disc brakes, full suspension, and a reliable 125cc 4-stroke engine with CDI ignition and electric start for smooth, dependable performance.

The F125U doesn’t stop there—it comes equipped with a rear rack, front and rear lights, and an automatic transmission controlled by a convenient foot shifter, making it easy to switch between forward, neutral, and reverse. A durable chain drive and oversized all-terrain tires give it the rugged power to handle any adventure.
