Product Description

TrailMaster K125 Mid-Sized Sport ATV

The **K125 ATV** arrives with striking new color options—choose a bold green or orange frame, paired with fresh body plastics and vibrant decals—that make it stand out on any trail. Built for both style and performance, this mid-sized sport quad features a **dual A-arm front suspension** and a **single-swingarm rear suspension**, ensuring a smooth ride over rough terrain.

Powering the K125 is a 125cc (7 hp) fully automatic engine with electric start and reverse capability. Combined with its eye-catching aesthetics and robust build, this ATV delivers excitement and reliability in a compact package.

Standard features include LED headlights and taillights, a remote kill switch, full-metal foot wells, a powder-coated steel frame, knobby off-road tires, and a throttle limiter to adjust speed control.
